

## PECT Exam Preparation Materials/Programs

### Online Resources (Low cost/free trial/subscription)

The PA Education Certification organization offers several resources on their site for free. This is a great place to start, because they are limited, but created by the certification board. They also offer fee-based interactive materials. For more information,

visit: [https://www.pa.nesinc.com/TestView.aspx?f=HTML\\_FRAG/PA006\\_PrepMaterials.html](https://www.pa.nesinc.com/TestView.aspx?f=HTML_FRAG/PA006_PrepMaterials.html).

Study.com offers access to their materials free for 30 days. They have content and practice tests available. For more information, visit: <https://study.com/academy/course/pect-prek-4-practice-study-guide.html#overview>.

Mometrix.com offers a free practice test. A study guide and flash card deck are available for approximately \$30 each. For more information, visit: <https://www.mometrix.com/academy/pect-pre-k-4/>.

For a variety of test prep books, search “PECT preparation course” into your search engine. Each company is a bit different, so the material is slightly different. If you choose to buy one, usually the companies with name recognition are the most useful (for example, Kaplan is more well-known than Citrus, so I would be more comfortable with Kaplan).

### Fee-Based Resources

Butler County Community College offers a 5-hour prep program that costs \$261 and boasts a high success rate. For more information, visit: <https://www.bc3.edu/praxis/tutoring.html>.
