

Peer-Led General Chemistry I Study Session

New topics
covered each
week

Review and
practice problems
for CHE102 &
CHE103

All students
welcome

Week Of	Session Topic (Subject to Change)
---------	-----------------------------------

8/24	Math for General Chemistry I
------	------------------------------

8/31	Significant Figures and Units
------	-------------------------------

9/7	Atomic Structure and Properties
-----	---------------------------------

9/14	Quantum Chemistry
------	-------------------

9/21	Electron Configuration and Trends
------	-----------------------------------

9/28	Molecules and Compounds
------	-------------------------

10/5	Lewis Structures and Geometry
------	-------------------------------

10/12	Chemical Bonding Theories
-------	---------------------------

10/19	Stoichiometry and Reaction Quantities
-------	---------------------------------------

10/26	Solution Concentration
-------	------------------------

11/2	Aqueous Reactions
------	-------------------

11/9	Thermochemistry and Heat Transfer
------	-----------------------------------

11/16	Thermochemistry and Enthalpy
-------	------------------------------

11/23	<i>No Session – Thanksgiving Break</i>
-------	--

11/30	ACS Final Exam Review
-------	-----------------------

Science
Complex South

4th Floor (402)

Every Thursday
2p – 4p

and/or

Every Friday
12p – 2p
